

Mahima Bhutani

Senior UX/UI Designer

Designer with 7+ years of experience designing intuitive, scalable digital experiences across web and mobile platforms. Specialization in information architecture, interaction design, design systems, and accessibility. Track record leading cross-functional teams to deliver user-centered solutions for complex enterprise and consumer products.

EXPERIENCE

Accenture Song, Helsinki — Senior Interaction Designer

APRIL 2022 - PRESENT

- Led end-to-end UX for multi-platform products with PMs, engineers, and stakeholders, from concept to detailed interaction and visual systems.
- Designed information architecture and key user flows, improving task completion and shortening onboarding through simplified navigation.
- Built and maintained an accessibility-ready design system, improving cross-team consistency and cutting design–engineering handoff friction.
- Ran prototyping and validation workshops using high-fidelity interactive prototypes to surface key product insights.
- Mentored junior designers in interaction design, design thinking, and cross-functional collaboration to strengthen user-centered culture.

FA Solutions OY, Helsinki — Lead UI/UX Designer

JANUARY 2020 - APRIL 2022

- Owned design system strategy and execution, building core components and interaction patterns used across the suite
- Led user research and interviews (15–20 per cycle) with investment professionals, translating insights into IA decisions and feature priorities.
- Designed key workflows for investment and portfolio tools, clarifying data visualizations and interactions, contributing to higher adoption.
- Partnered with product, engineering, and customer success on rapid iteration, delivering prototypes and validating concepts before full implementation.

Scania CV, Sweden —UX/UI Designer

JANUARY 2019 - JANUARY 2020

- Designed a decision-support dashboard for fleet managers that simplified data and interactions, reducing time-to-insight.
- Produced interactive wireframes, low/high-fidelity prototypes, and detailed interaction specs for web and mobile to keep design and development aligned.
- Ran usability tests and heuristic evaluations, capturing findings and iterating to continuously improve the dashboard experience.
