

Mahima Bhutani

Lead UI/UX Designer / Product Owner

Design Leader with over 7 years of experience building intuitive, scalable digital experiences across web, mobile, and **AI-first platforms**. Proven track record of leading cross-functional teams through the complexities of intelligence-led design, from initial concept to high-stakes client delivery. I specialize in bridging the gap between emerging technology and business value, having **successfully pitched and sold complex AI design initiatives** to enterprise and consumer clients alike.

EXPERIENCE

Accenture Song, Helsinki — Senior Interaction Designer

APRIL 2022 - PRESENT

- **Led end-to-end UX for multi-platform AI products** with PMs, engineers, and stakeholders, from concept to detailed interaction and visual systems. Delivered products in due time and under-budget.
- Spearheaded the adoption of **AI-first design** for the products. Contributed to winning projects by advocating for AI-first design in sales pitches.
- **Designed information architecture and key user flows**, improving task completion and shortening onboarding through simplified navigation.
- **Built and maintained an accessibility-ready design system**, improving cross-team consistency and cutting design-engineering handoff friction.
- **Ran prototyping and validation workshops** using high-fidelity interactive prototypes to surface key product insights.
- **Mentored junior designers in interaction design**, design thinking, and cross-functional collaboration to strengthen user-centered culture.

FA Solutions OY, Helsinki — Lead UI/UX Designer

JANUARY 2020 - APRIL 2022

- **Owned design system strategy and execution**, building core components and interaction patterns used across the suite
- **Led user research and interviews** (15–20 per cycle) with investment professionals, translating insights into IA decisions and feature priorities.
- **Designed key workflows for investment and portfolio tools**, clarifying data visualizations and interactions, contributing to higher adoption.

Scania CV, Sweden —UX/UI Designer

JANUARY 2019 - JANUARY 2020

- **Designed a decision-support dashboard** for fleet managers that simplified data and interactions, reducing time-to-insight.
- **Produced interactive wireframes**, low/high-fidelity prototypes, and detailed interaction specs for multi-modal to keep design and dev aligned.
- **Ran usability tests and heuristic evaluations**, capturing findings and iterating to continuously improve the dashboard experience.
